Meeting Rosi and the team at the orphanage truly changed my overall perspective on life. Seeing the sacrifice and selflessness that goes into keeping this orphanage running inspired me to not just "feel bad about it", but to step up to the plate and use my platform to make a real difference in people's lives."

David Falkowski, Founder of Open Minded Organics says: "As an organic Farmer, Permaculturist, and Educator I am thoroughly impressed with the concept, design and implementation of this program. Thru its dynamic and sustainable scope, some amazing human beings are being cultivated."
